

Cool feed for horses and ponies at maintenance or in light to moderate work

Don't risk having a horse or pony that is too "hot" for its rider. While education plays an important role in developing tractable behaviour, feed can have a significant impact as well.

As many owners know, some horses get "hot" at the very thought of food. Barastoc Calm Performer Pellets are formulated to provide the ideal source of balanced nutrition for potentially "hot" horses and ponies in light to moderate work. Being free of oats, the corresponding low level of starch provides cooler energy, reducing the risk of tension and mental instability often associated with high grain diets.

Barastoc Calm Performer contains 11% protein, a level that suits a mature working horse or pony. Dolomite is also included to provide extra magnesium.

The pelleted formula ensures that every mouthful provides balanced nutrition and stops horses from sifting out important ingredients. It also contains molasses to keep them eating right to the bottom of the bin.

Product number: 8506020

FEEDING DIRECTIONS

Horse Weight (kilograms)	Feeding Rate (kilograms/day)	
	<i>Maintenance & Light Work</i>	<i>Moderate Work</i>
300	1.0 to 2.5	1.5 to 3.0
400	1.5 to 3.0	2.0 to 4.0
500	1.5 to 3.5	2.5 to 4.5
600	2.0 to 4.0	3.0 to 5.0

ANALYSIS (AS-FED)

Crude Protein (minimum)	11%	Phosphorous (minimum)	0.55%
Crude Fat (minimum)	2.5%	Vitamin A (added)	5000IU/kg
Crude Fibre (maximum)	15%	Vitamin E (added)	20mg/kg
Selenium (added)	0.5mg/kg	Digestible Energy	
Calcium (minimum)	1%	(estimated)	11MJ/kg
Calcium (maximum)	1.25%
